Laundry 101

- Sort at least by lights (white, tan, yellow, gray, lt. green, lt. blue), darks (black, navy, dk. green, brown), and reds (includes pink, orange, red and bright purple).
- If your clothes are inside out, fix them while sorting.
- Do not overfill the washer. The white plastic hamper in laundry room is 1 load.
- Use Shout on stains and rub it in. Do not put poopy undies in washer. Rinse first!
- Washer setting is “Quick” load, cold for both wash and rinse cycle temperatures.
- Fill cap with detergent to just BELOW the -3- marking inside cap.
- DO NOT LEAVE CLOTHES IN WASHER AFTER CYCLE IS DONE! They will get mildewed.
- When done with washer, empty water out of soap dispenser by pushing down on the button that says “PUSH” on the dispenser and pulling it straight out.
- Wipe down door and inside rim with white washcloth. Hang cloth to dry on the door. Leave soap dispenser and door OPEN.
- Use 1 dryer sheet per load in dryer.
- When done with all drying, pull out lint tray (under Maggie’s bed) and clean out the lint. DO NOT pull out the lint tray when the dryer is running!! It will clog the vent.
- You can use the white laundry basket to transfer clothes from washer to dryer, but leave it in the laundry room. Do not take it to your room. Use your own hamper.
- PUT YOUR CLOTHES AWAY **THE SAME DAY** THEY ARE DONE!!!!!!!!!!!!!! That means folded and in dresser or hung up in closet.
- AS SOON AS **GYM CLOTHES** ARE DONE, PUT THEM IN YOUR BACKPACK!

LOVE, MOM
